First Citizens Digital Banking External Transfers

Simple and Convenient External Transfers

External Transfer allows you to link your Digital Banking accounts to your bank accounts at other financial institutions so you can transfer money.

Accessible in Digital Banking, our external transfer solution provides enhanced fraud monitoring controls to protect your money and offers a faster payment solution for consumer customers free of charge!

Enroll in External Transfer

To start transferring funds to other financial institutions, log in to <u>Digital Banking</u>. Select **Payment & Transfers** and click on **Access External Transfer**. You'll accept terms and conditions and then verify your email address to receive a verification code. You will enter that code on the **Preferences** tab within **Access External Transfer**.

Add Accounts

Add external accounts on the **Preferences** tab. You will need to verify your accounts, in one of two ways. Verify your external accounts instantly by entering your external account username and password, or with bank deposits. This will be clear to you, as not every financial institution allows instant verification. If yours does not, the option to verify with bank deposits will be prompted automatically.

Transfer Funds

Once your external account is verified, you can begin transferring money between First Citizens and your external accounts from the **Transfer Funds** tab. You will be able to choose the frequency of your transfers i.e. One time, weekly, monthly, etc.
